Is Zenith launching a solar farm in the Dominican Republic?
Source: Comisión Nacional de Energía () Zenith Energy Corp SRL,a subsidiary of Blacktree Capital Management,has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic,launching a project that will boast the Caribbean nation's first battery energy storage system (BESS).

Is solar energy a viable resource for the Dominican Republic?
High solar potential,along with integrating efficiencies and economies of scale,can make solar energy a viable resourcefor the Dominican Republic. Similarly,wind energy has strong potential,particularly in the southwest.

How much power will the Dominicana Azul solar farm produce?
The Dominican national energy commission CNE said that the solar farm will have a BESS of 24.8 MW of power and 99.2 MWh of storage capacity. The Dominicana Azul plant will be capable of producing around 176.4 GWhof electricity annually for the national grid. Zenith Energy will build the facilities in the Cabrera municipality.
