ISLAMABAD: Tajikistan's First Deputy Minister for Energy and Water Resources Jamshed Shoimzoda on Sunday said that the major energy project Central Asia-South Asia ...

Tajikistan - Central Asia South Asia Electricity Transmission and Trade Project (CASA-1000) : Implementation Support Mission - May 27-31, 2024 (English). Washington, ...

Once fully operational, CASA-1000 will allow Tajikistan to export up to 11 billion kilowatt-hours (kWh) of clean electricity annually to South Asia, while advancing the government's own target ...

Funding for the CASA-1000 comes from various sources. The project will allow for the export of 1,300 megawatts (MW) of electricity during the summer months when both Tajikistan and Kyrgyzstan experience surplus electricity generation from hydroelectric dams. In April 2025, work on the high voltage direct current (HVDC) converter stations was completed, including the laying down of a 485 kilometer-long and 500 kilovolt (kV) alternating current transmi...

According to official updates, the converter station in Tajikistan is almost complete and Pakistan's is well underway. Once operational, CASA-1000 will be a trailblazer for trans ...
