Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The 20ft solar-powered container is the final answer to speedy deployment, inexpensive power generation and a clean energy tomorrow. Disaster relief after a catastrophe ...

The 20ft solar-powered container is the final answer to speedy deployment, inexpensive power generation and a clean energy tomorrow. ...

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Convert shipping containers into mobile power stations equipped with generators or solar panels. These can be deployed to remote areas or disaster-stricken regions to provide temporary ...

Increase your energy capabilities with our compact and powerful 20ft Solar Energy Container construction. Designed to be strong and mobile, it offers 140kWh per day, thanks to its 60 m²; ...

It's essentially a standard 20-ft steel container fitted with fold-out photovoltaic arrays, inverters and batteries. When deployed, the ...
