---

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

Yes, you can expand your solar power system with an 80A PWM solar charge controller by adding more solar panels and batteries as needed. However, it's crucial to maintain a ...

The controller has a charge controller for every solar panel array with several size options. This 80A charge controller works with 12, 24, 36 & 48V DC battery systems and provides real-time ...

With the Rover Li 60A MPPT charge controller, the kit can meet your further power needs by adding more of the same solar ...

With the Rover Li 60A MPPT charge controller, the kit can meet your further power needs by adding more of the same solar panels; for example, a 24V system expandable up to 1600W. ...

?UNIVERSAL 12V-48V AUTO-SENSING COMPATIBILITY?80A MPPT charge controller Seamlessly adapts to any solar setup with automatic voltage detection (12V/24V/36V/48V) and ...

?Efficient 80A MPPT Solar Charge Controller?The 80A mppt solar charge controller is compatible with 12V/24V/36V/48V system voltages and features innovative MPPT (Maximum ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
