Our 2 mm solar glass is exclusively produced in a float glass process. This industrial process adheres to very strict production tolerances and ...

Higher transmission and lowest iron content solar glass. High impact resistance glass. 2 times stronger than heat-strengthened glass and 4 ...

Designed specifically for photovoltaic applications, this glass serves as a protective backsheet while allowing secure fastening of solar modules. Its balanced strength-to-weight ratio makes it ...

Customized ITO / FTO conductive glass plays a crucial role in scientific experiments, offering excellent conductivity, transparency, and stability. Ideal for photovoltaics, sensors, and ...

The modules with thin glass - 2mm front and 2 mm back sheet glass - allow, in fact, higher yields compared to conventional glass for photovoltaic and are always maintaining the same ...

Our solar glass with renowned "Anti-soiling" and "Easy to clean" coatings. High performance solar glass for Bifacial modules, Glass-glass modules, Floating PV modules, Rooftop PV, BIPV, Car ...

Our 2 mm solar glass is exclusively produced in a float glass process. This industrial process adheres to very strict production tolerances and guarantees a very low defect density.

Higher transmission and lowest iron content solar glass. High impact resistance glass. 2 times stronger than heat-strengthened glass and 4 times stronger than annealed glass. Known for its ...

Solar Glass combined with nanometer anti-reflective coating technology is applied for solar modules. It

2mm semi-tempered solar glass

increases solar transmittance by way of decreasing light reflectance, thus ...

The 2 mm solar glass is not only lighter than the current world standard of 3.2 mm, but also absorbs less solar energy while allowing higher irradiance to reach the solar cell.

We specialise in 2 mm to 4 mm front and rear panels for the latest generation of glass-glass photovoltaic modules. Super thin and super strong. Glass-glass photovoltaic modules have a ...

Our solar glass with renowned "Anti-soiling" and "Easy to clean" coatings. High performance solar glass for Bifacial modules, ...
