What is a 48 volt solar water pump?

48 volt solar water pump for sale, with maximum head 56~95m (180~310ft), maximum flow 925~1585 gallons per hour, single-suction impeller, 3 inch inlet diameter and 1.25 inch outlet diameter. 1hp solar powered submersible pump can be used for irrigation, water tank, pool, livestock or farms.

What is the difference between 600W and 48V solar water pump?

600W solar water pump with special DC controller has maximum head 42~80m (135~260ft), maximum flow 800~1585 gallons per hour, 3 inch/4 inch inlet diameter and 1.25 inch outlet diameter. 48V DC solar powered submersible water pump can be used for pool, tank, water feature or fountain.

What is a 72 volt solar water pump?

72 volt solar water pump with special DC controller has maximum head 56~95m (180~310ft), maximum flow 925~1585 gallons per hour, single-suction plastic/stainless steel impeller, 3 inch/4 inch inlet diameter and 1.25 inch outlet diameter. 1 hp solar deep well pump can be used for tank, pool, fountain or water feature.

What is a 3 inch solar water pump?

3 inch solar water pump with special DC controller can be used for pond, farm, fountain or pool. 1/2 hp solar water pump with low cost can pump 800~1000 gallons per hour. The maximum head is 47~50m. The working voltage of 400W solar water well pump is DC 48 volt. DC controller with LED display can show power, voltage, current and speed values.

48 volt solar water pump for sale, with maximum head 56~95m ...

Tuhorse solar water pump package: includes solar pump replacement ...

Upgrade your home or industrial water systems with our 48V Stainless Steel Solar Water Pump. Perfect for deep well usage!

Tuhorse solar water pump kit: includes solar pump, automatic controls, PV Panel, drop wire, water level sensor and more!
