How many EVs are there in Abu Dhabi?

Abu Dhabi has witnessed significant growth in its electric vehicle fleet, with 2,441 EVs, 4,138 hybrid vehicles, and 9,412 natural gas vehicles on its roads as of late 2023. However, EVs still represent less than 1.3% of the total vehicles in the region. Currently, there are around 250 public EV charging stations in Abu Dhabi.

How many EV charging points will Abu Dhabi have by 2030?

To meet the growing demand for EV charging infrastructure and support the transition to electric mobility, the Abu Dhabi National Oil Company (ADNOC) and Abu Dhabi National Energy Company (TAQA) have set an ambitious target to install 70,000 EV charge points in the emirate by 2030. UAE7.

What is Dubai doing about EV charging?

Dubai has introduced a Clean Energy Strategy 2050 and a Green Mobility Strategy 2030 including an EV Green Charger initiative to expand the EV charging network and encourage the use of pure electric and hybrid cars across Dubai.

How many electric cars are there in Dubai?

The number of EV owners registered under the Green Charger Initiative has increased from just 14 in 2015 to more than 11,000 by mid-2023 and Dubai aims to have more than 42,000 electric cars on its roads by 2030.

Through this, we got updated cost figures and technical improvements (e.g. new battery chemistries with longer life).

Easily compare car specifications and prices with our comprehensive Comparison Tool.
