Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can ...

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge ...

1MW Energy Storage System is highly integrated with lithium battery, battery management system, PCS, grounding system, power distribution system, temperature control system and ...

Unlock the true potential of renewable energy with our Solar Container Energy Storage System. Contact us today to learn more about how our solution can transform your energy storage ...

Our pre-integrated, plug-and-play solution combines high-energy density lithium-ion batteries with advanced power conversion and smart controls in a customized 40Hq shipping container.

Each container with all of the equipment will weigh less than 16 tons. Fully tested before being shipped. Factory will provide free installation support and after sales service. Production time ...

Whether you're optimizing a solar power plant, enhancing a community solar projects, or scaling a utility

After-sales service for 1MW solar-powered containerized campsites

scale solar farm, this all-in-one system delivers on reliability, performance, and value.

We integrate research and development, production, and sales of lithium battery packs, serving solar energy, wind energy, intelligent charging equipment, and more.

We provide pre-sale engineer on site service for field investigation before design, to make sure every solution designed by WonVolt is 100% perfectly suitable for clients" requirement.
