A stunning off-grid container home in Gippsland features GoodWe's CEC-approved EHB hybrid inverter and Lynx F G2 battery, delivering sustainable living, blackout protection, ...

Since 2011, Australians in remote and rural locations have trusted Commodore Australia to deliver top-quality off grid solar systems designed to withstand Australia's toughest climate conditions.

Australian Solar Container technology works with diesel generators to give clean, quiet, and steady power. Farms and building ...

AVID has Containerised solutions for Solar, EV Charging, pumping stations and portable data centres, suited to remote, Mission-Critical Commercial ...

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply.

Containerised off-grid power systems designed and built in Australia for farms, mining, remote resorts and communities. Reliable, scalable, pre-wired and factory-tested.

AVID has Containerised solutions for Solar, EV Charging, pumping stations and portable data centres, suited to remote, Mission-Critical Commercial and Industrial Sites and Projects.

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.

Our portable solar systems come equipped with Australian made solar panels, batteries, and inverters,
