At JR Automation, we design and build automation solutions for every step of the EV battery module and pack assembly process. Whether you are looking to automate one step of your ...

Discover the key features of a modern battery pack assembly line and how expert design and automation can boost performance, flexibility and output.

Beckhoff offers high-performance automation solutions for all battery ...

Beckhoff offers high-performance automation solutions for all battery manufacturing processes.

Nordson is globally renowned for providing high-quality and innovative battery manufacturing equipment, including 2K dispensing systems, bulk unloaders, slot dies, die lip adjustment ...

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are ...

From the individual battery cell to the assembly of complete battery packs: With many years of expertise, KUKA covers the entire value chain in battery production systems and supplies ...

As a result of our partnership with Bosch, we have identified several key process improvements in developing an automated battery cell assembly line. Some of these processes are typical of ...

Immerse yourself into the realm of pack assembly and end-of-line (EOL) testing with our animation, crafted to showcase the custom solutions offered by Bosch Rexroth for battery ...
