A tool for easy analysis, visualization and comparison of cell battery data across many institutions

This dataset includes accelerated lifecycle data for Li-ion battery packs composed of two 18650 cells. It covers various loading conditions, ...

Included in EnPower is a database of 300+ cells including novel cell chemistries, ultracapacitors, and commercially available batteries. ...

This dataset includes accelerated lifecycle data for Li-ion battery packs composed of two 18650 cells. It covers various loading conditions, including constant and random loading levels, as ...

Access a database and benchmarking platform of the latest lithium- and sodium ion battery cells available on the market.

The on-line Battery DataBase includes 20,000 updated records of battery industry companies, batteries, cells, fuel cells and super capacitors datasheets. Do you want to find the best cell for ...

The battery pack database is now available as an excel file via a download. This is \$15 and gives high level data for a number of battery packs (see page for details). Benchmark your design ...

Cell Database ALL NEW - Battery Finder Search for 12/24/36/48v or by capacity New & used Batteries, Solar, accessories, LifePo4 cells & more 5% ...

The on-line Battery DataBase includes 20,000 updated records of battery industry companies, batteries, cells, fuel cells and super capacitors ...

Included in EnPower is a database of 300+ cells including novel cell chemistries, ultracapacitors, and commercially available batteries. EnPower is web-based battery design and simulation ...

Check out this easy-to-use excel sheet with pack level data to compare your products against. Great from strategy through design to marketing, this tool is a must-have for anyone in the...

This is an excel file with 1,543 battery packs listed and 39,666 data points. The file comes as a .xlsx file to allow you to easily download it and open in Microsoft Excel.
