How much are Chinese solar modules worth?

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for TOPCon modules from China has fallen to \$0.100 per watt, a decline of \$0.005 per watt compared to the previous week. Similarly, Mono PERC module prices have also dropped by \$0.005 per watt, now standing at \$0.090 per watt.

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How much do Topcon solar modules cost in China?

The current tradable indications for TOPCon modules are being reported at \$0.10 per watt Free-on-Board (FOB) China. As the market struggles with low demand, these new record low prices highlight the ongoing challenges faced by Chinese solar module makers.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

The Chinese PV industry has witnessed a wave of collective price hikes across the supply chain, from wafers, solar cells, to modules, ...

Amid intense competition amongst module sellers and pressure to clear inventories, module prices would continue to weaken ...

After nearly two years of steep declines, China's photovoltaic (PV) module prices are now showing a clear upward trend. Recent shifts in supply dynamics, production policy, ...

China solar module prices as of the end of May were down nearly 30% from a year earlier, and uncertainty about demand for cells ...

Solar module prices projects to jump 9% in Q4 2025 as China reduces VAT rebates. Learn procurement strategies, technology alternatives (HPBC/ABC), and cost-saving ...

BEIJING, July 10 (Reuters) - Some China solar stocks jumped sharply on Thursday, continuing a multi-day rise on news that Beijing wants to dampen aggressive price cutting that has driven...

Beijing's fight against disastrous competition in the solar-equipment sector showed early signs of success, with a sustained recovery in prices likely to return leading polysilicon ...

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for TOPCon modules from China has fallen to ...

Due to cost pressures and policy drivers, module prices may attempt a moderate rise next week, but weak demand and high inventory levels will likely cap the increase.

BEIJING, July 10 (Reuters) - Some China solar stocks jumped sharply on Thursday, continuing a multi-day rise on news that Beijing wants to ...

In a bid to stabilize its solar panel manufacturing sector, Beijing has announced measures aimed at curbing aggressive price competition ...

China solar module prices as of the end of May were down nearly 30% from a year earlier, and uncertainty about demand for cells and modules has complicated matters as ...
