---

Public Power Corporation (PPC) has launched construction on two BESS projects in Northern Greece totalling 98MW/196MWh of capacity.

Sunny Greece struggles with an overabundance of solar generation, which creates a valuable opportunity for BESS (battery energy storage systems) to provide flexibility and ...

METLEN and Karatzis Group of Companies are entering into a new strategic partnership through a joint venture for the development, construction, operation, and energy management of a ...

In 2025, Greece has accelerated its plans for utility-scale Battery Energy Storage Systems (BESS), signalling a shift in policy, ...

Public Power Corporation (PPC) has launched construction on two BESS projects in Northern Greece totalling 98MW/196MWh of ...

With 4.7 GW of merchant BESS capacity now eligible under this regime, Greece is making a decisive move toward a more flexible, ...

As Greece accelerates its renewable energy ambitions, grid-scale battery energy storage systems (BESS) will be vital for balancing ...

Speaking to Strategic Energy Europe, Mr. Christos P. Gkikas warns that without storage, the financial impact will be severe and emphasizes that the only way to mitigate that ...

As Greece accelerates its renewable energy ambitions, grid-scale battery energy storage systems (BESS) will be vital for balancing solar and wind variability. Between 2026 ...

With 4.7 GW of merchant BESS capacity now eligible under this regime, Greece is making a decisive move toward a more flexible, resilient and efficient energy system, with a ...

In this article, we provide a summary of the key points of the Ministerial Decision. Classification and capacity caps for eligible BESS projects. The decision classifies eligible ...

BESS: A timely solution for Greece's solar-rich but storage-deficient grid. What makes this partnership so special? Right now, sunny Greece has a considerable surplus of ...
