7.5MW solar PV power plant in Mubuga, Burundi, will improve the energy supply of nearly 90,000 people, while providing 300 temporary and 50 permanent jobs.

The power station was constructed between January 2020 and October 2021, by Gigawatt Global Coöperatief, the Netherlands-based multinational (IPP), through its local subsidiary Gigawatt ...

Planning a solar factory in Burundi? Learn how to overcome unstable power grid challenges with a resilient hybrid power microgrid to ensure uninterrupted production.

The power station is located in the settlement of Mubuga, in the Gitega Province of Burundi, approximately 15.2 kilometres (9 mi), northeast of the city of Gitega, the political capital of that ...

Discover how solar energy solutions are transforming energy access in Burundi through innovative photovoltaic systems and battery storage technology.

Green energy developer Gigawatt Global has led an international effort in a six-year process to build Burundi's first solar farm, consisting of a 7.5 MW solar PV plant located near the village ...

The project, Burundi's first grid-connected solar development by an independent power producer, is expected to pave the way for further foreign investment into the country's renewable energy ...

The 7.5 megawatt solar farm increases Burundi's generating capacity by 10%, representing the first substantial energy generation project in the country in more than 30 years.

You know, Burundi's been stuck in this vicious cycle for decades - only 11% of its population had reliable
