What kind of batteries are available in Canada?

Canadian battery supplier offering superior sealed lead-acid, lithium iron phosphate and lead carbon batteries. Battery experts specializing in energy solutions are available to help you find the best batteries for your project. State of the art battery equipment is used to manufacture batteries for consistent quality and fast production.

What is a sealed lead acid battery?

Canbat is constantly developing new battery technologies to meet the demands of the evolving global battery market. Sealed lead-acid batteries are often referred to as valve-regulated lead-acid (VRLA), or simply sealed lead acid (SLA). There are primarily two types of these batteries: AGM and Gel.

Are lithium batteries better than lead-acid batteries?

Lithium batteries have 10 times higher cycle life and are 60% lighter than lead-acid batteries. Canbat is Canada's #1 lithium battery company. Canbat lead carbon batteries are designed with PSOC compatibility for ultra-fast charging capability, efficiency and more than three times as many cycles as standard AGM batteries.

We offer a variety of power solutions to a wide range of applications and industries all backed by a solid worldwide warranty. We take pride in all of our American made deep cycle flooded lead ...

Canada-wide distribution and full support for flooded lead-acid, lithium, and AGM batteries used in transportation, motive, and stationary applications. Canadian Energy is proudly 100% ...

Locate Lead Acid Batteries suppliers, manufacturers & distributors in Canada. Interactive map of Canada provided.

Canbat is a Canadian battery supplier of sealed lead-acid, lithium iron phosphate, and lead-carbon batteries. We design, develop ...
