Who are the best Chinese circuit breaker companies?

Top Chinese circuit breaker companies, such as TOSUNLux, focus on producing reliable circuit protection devices verified by top industry certifiers. TOSUNLux is open to discussing custom low-voltage switchgear needs and offers tailored solutions for specialized installations worldwide.

What are striker fuses?

Striker fuses are fuses fitted with a spring-loaded striking device that can trip adjacent switches and also indicate that a fuse has blown. A Type C fuse is actually a type of miniature circuit breaker (MCB). MCBs are a type of circuit breaker used with lower-powered circuits to cut off current in the event of an overload.

What is a fuse & how does it work?

A fuse is an electrical component designed to protect electrical circuits by safely opening the circuit under abnormally high current loads. Fuses come in many shapes and sizes, but each one is designed to protect a circuit with a specific set of electrical parameters.

Why are fuses a cost-less solution for overcurrent protection?

Fuses are cost-effective compared to other protective devices such as circuit breakers, making them a cost-less solution for overcurrent protection. Fuses provide quick protection against electrical defects by rapidly interrupting circuit current in the case of an overcurrent condition.

Our factory is equipped with advanced machinery and tools specifically designed for the manufacturing of fuses, fuse holders, circuit breakers, thermostats, and NTC temperature ...
