Colombia's first grid-scale battery energy storage system (BESS) came online in 2023 near Medellin - a 20MW/40MWh behemoth that's essentially a giant Tesla Powerwall for ...

Erco Energy launches large-scale solar and battery storage project in Colombia Colombian company Erco Energy has inaugurated the La Martina project, featuring a 16.7 ...

Colombia's government has inaugurated Sol de Perijá, the country's first community energy project integrating solar power and advanced battery storage, marking a ...

Canadian Solar has been awarded an important contract for the first-ever battery energy storage project in Colombia by its Ministry of Energy and Mines.

As renewable penetration rises, energy storage systems (ESS) and hybrid generation models are emerging as essential tools for maintaining reliability, managing ...

Proposed new rules seek to provide greater flexibility for developers of renewable energy projects with storage components.

Celsia has deployed the battery energy storage system (BESS) at its 9.9MW Celsia Solar Palmira 2 farm in Valle del Cauca to ...

Located in the city of Barranquilla in northern Colombia, this project will consist of a 45 MWh lithium-ion battery energy storage system and is expected to reach commercial operation by ...

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint
