-----

As the first new 400 kV substation in Croatia in over 20 years, Promina will be the largest solar energy facility of its kind in the country and the region.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

At the start of September 2023, we completed the construction of a 35 kV substation connecting the Koljane Solar Power Plant (SE Koljane) to the ...

Summary: Croatia is rapidly adopting centralized photovoltaic (PV) energy storage systems to stabilize its renewable energy grid. This article explores the country's progress, key projects, ...

The substation, which will initially connect 300 MW with potential for an additional 600 MW, is expected to significantly enhance ...

Croatia recorded a landmark year for renewable energy in 2025, with solar, wind and renewable thermal power sources taking a leading role in the national electricity system for the ...

The battery system will have a discharge capacity of 38 MW and a storage capacity of up to 70.8 MWh, designed to operate for around twenty years. An environmental ...

The construction of Promina marks the first new 400 kV substation project in Croatia in over two decades, highlighting KONCAR's ...

The substation, which will initially connect 300 MW with potential for an additional 600 MW, is expected to

significantly enhance grid connectivity in the Split-Dalmatia region, ...

At the start of September 2023, we completed the construction of a 35 kV substation connecting the Koljane Solar Power Plant (SE Koljane) to the grid. This milestone project, delivered for ...

The facility will be installed for Swedish company Vattenfall. Koncar signed its largest single substation contract to date, in terms of commercial value, with Vattenfall ...

Croatian electric equipment manufacturer Koncar has signed a contract worth 15.3 million euros with Solarna Elektrana, the Croatian subsidiary of Spanish company Acciona Energia, for the ...
