---

The system is designed to withstand 6,000 full cycles at 80 percent depth of discharge. However, the key feature highlighted in the product announcement is the ...

The latest contribution is the largest battery in the Czech Republic with an output of 10 MW, which is being built under the supervision of CEZ ESCO on the premises of ...

In early 2025, the Czech Parliament approved new legislation enabling stand-alone battery storage systems to be connected directly to the grid - something that was not ...

Europe is getting a new battery manufacturer: GAZ Energy. In the eastern Czech city of Bohumín, near the Polish border, a new ...

The system consists of 1,360 battery modules and contains 90 tons of lithium. It has an output of ten megawatts and thanks to its unique construction, it has 20 percent higher capacity ...

Since 2007, we have been specializing in the installation of photovoltaic and wind power plants for family homes and commercial buildings. During this ...

Europe is getting a new battery manufacturer: GAZ Energy. In the eastern Czech city of Bohumín, near the Polish border, a new production facility for battery storage solutions ...

As demand for reliable energy solutions grows across Central Europe, Czech industries are increasingly adopting large capacity lithium battery packs. These systems offer scalable power ...

The implementation of the 2025 regulatory new policy for battery energy storage in the Czech Republic marks an important milestone in the development of the energy storage ...

It will be open to all energy storage technologies that are directly connected to the transmission or distribution network, and will support the European Commission's 2024-2029 ...

As the Czech Republic accelerates its transition to clean energy, the Brno Wind and Solar Energy Storage Project stands as a landmark initiative. This article explores how cutting-edge battery ...

Since 2007, we have been specializing in the installation of photovoltaic and wind power plants for family homes and commercial buildings. During this time, we have completed hundreds of ...
