Does Hyundai sell solar panels & energy storage systems?

Solar panels, energy storage systems and the home EV charger are manufactured and offered by third parties. Currently, the home EV charger, solar panels and energy storage systems are available in select markets by referral from select Hyundai dealers. The Hyundai Home service will be available from additional dealers in 2023.

What kind of solar panels does Hyundai make?

Hyundai manufactures both commercial and residential solar panels. It currently offers two lines of solar panels: the XG Series and the YH Series. The XG Series is made up of high-quality panels that use half-cut monocrystalline solar cells and multi-busbar technology.

Does Hyundai Home have solar panels?

The Hyundai Home energy ecosystem has the flexibility to generate as much clean, sustainable energy as you need. In fact, many customers can substantially impact their energy usage, or even offset it completely. The only real limitation is the roof space you have available for solar panels.

What are Hyundai XG solar panels made of?

The XG Series is made up of high-quality panels that use half-cut monocrystalline solar cells and multi-busbar technology. That's a lot of solar jargon that basically means Hyundai is using some of the industry's best techniques to make higher-efficiency panels.
