This comprehensive guide has detailed methodologies, case studies, and best practices aimed at empowering structural engineers to design earthquake-resistant tanks and containers in a ...

Steel oil refineries are subject to ageing due to corrosive chemicals and harsh atmospheric conditions, leading to the degradation of their structural integrity. This deterioration affects the ...

Storage tank containers made of high-performance steel from Krampitz - store mineral oils and fuels in an earthquake-proof and flood-proof manner.

To protect the environment and ensure regulatory compliance, petroleum refining spaces and oil storage facilities with petroleum bulk storage must provide secondary containment solutions ...

In this review, pioneering as well as modified and recently developed dynamic modelling procedures proposed in the literature for fluid storage tanks, and their limitations and ...

GR2, working closely with the refinery's safety and operations team, has deployed an innovative, integrated approach to assess the seismic resilience of the refinery storage tanks.

A seismic fragility assessment methodology is presented for equipment-supporting reinforced concrete and steel buildings that are ...

A seismic fragility assessment methodology is presented for equipment-supporting reinforced concrete and steel buildings that are typically encountered in oil refineries.

Using a suite of hazard-consistent ground motions and reduced-order models, incremental dynamic analysis is

Earthquake-resistant energy storage containers for oil refineries

performed to obtain the seismic demand of the structural systems examined.

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing.

GR2, working closely with the refinery's safety and operations team, has deployed an innovative, integrated approach to assess the seismic ...

With our expertise, advanced engineering capabilities, and commitment to safety and structural integrity, we deliver custom seismic-resistant storage tanks that meet the unique requirements ...
