When will East Timor's first solar power plant start?

KUALA LUMPUR, Oct 17 (Reuters) - East Timor expects the construction of its first large solar power plant to begin in 2026 and become operational months later, the state utility's chair told Reuters, helping it slash expensive diesel imports.

Is East Timor interested in solar power?

East Timor President Jos#233; Ramos-Horta told The Associated Press in an interview in Dili last week that his country is interested in exploring various types of renewable energy sources, including wind, sea and especially solar power. "We have plenty of sun," he said, adding that the cost of solar technology continues to fall.

Can East Timor transition its energy sector?
