Will East Timor transition its energy sector?

Still, East Timor's government has expressed interest in transitioning its energy sector. In 2020, it hired energy consultants to conduct a feasibility study for supplying natural gas to the three power plants. In 2021, it announced tendering for solar parks and a feasibility study for hydropower schemes.

Does East Timor have electricity?

Recovery was slow after East Timor gained formal independence in 2002. By 2015, just 60% of the population had access to electricity, according to the World Bank. Efforts to electrify the country have jumped since then, with 100% of residents having access to electricity since 2021, according to the International Renewable Energy Agency.

Could clean water save East Timor?

Clean water would also reduce East Timor's rate of childhood stunting, which is among the world's highest. "This is a lifesaving project," said Mariano Carmo, an East Timorese government official who worked on the project until December.

Is East Timor still a democracy?

Residents of Dili, East Timor's capital, washing clothes in a dried-up riverbed under a bridge last year. Credit... Ulet Ifansasti for The New York Times Ravaged by a brutal military occupation, East Timor won its independence just over two decades ago. The young nation has built itself into a stable democracy, but poverty remains widespread.

In June 2016, the government of Timor-Leste signed an agreement with the Bolloré Group to build and operate a new container port at Tibar Bay. The 30-year concession contract was the first public-private partnership ever undertaken in Timor-Leste. At a value of US\$490 million (comprising \$130m public and \$360m private funds), it also amounted to the country's largest ev...

Work is progressing on Timor-Leste's new US\$490 million deepwater container port, with the main contractor shipping the first batch of steel pipes for the construction this week.

At the beginning of the Tier 4 transition, our engineering team had the opportunity to work with different customers in different markets to design ...

The small Southeast Asian nation of East Timor is at an energy development crossroads.

As East Timor emerged as Asia's newest democracy, it forged close ties with the United States, which has provided hundreds of millions of dollars in foreign aid.
