-----

Folding container houses are an innovative solution for oil and gas drilling sites, providing fast setup, durability, mobility, customization, and cost-effectiveness.

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed ...

"By leveraging second-life EV battery packs and modular containerised design, we are delivering a cost-effective, scalable product ...

With nearly 20 years of delivering fully automated solutions to container terminals globally, the Kalmar FastCharge™ AGV is built on a proven automation platform you can rely on.

The Liduro Power Port (LPO) is an energy storage system for power supply on construction sites. It allows for locally emission-free operation and charging of hybrid or fully ...

Built with high-strength galvanized steel and insulated EPS sandwich panels, it offers a durable, safe, and comfortable space for both temporary and semi- Size like a 20ft Container, 14m2 ...

Zeppelin Power Systems offers innovative Cat battery storage system solutions for the unique demands of the oil and gas industry. The robust systems feature high power density, fast ...

In the fast-paced world of oil and gas projects, modular buildings have emerged as a game-changer for drilling camps, addressing critical needs for speed, efficiency, and ...

The charging solution consists of a 10-foot container, which houses a charging station with up to 150 kW

charging power. Battery stacks form a scalable energy storage ...

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed within a durable 10-foot sea container, it ...

"By leveraging second-life EV battery packs and modular containerised design, we are delivering a cost-effective, scalable product that supports businesses and public ...

Our mobile, containerized energy conversion systems are designed for fast deployment to provide access to reliable power and energy. In projects such as events powered by generators, the ...
