Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Will Georgia Power add storage to solar projects?

In its IRP, Georgia Power detailed adding storage to solar projects, saying that its adoption of solar+storage versus solar-only generation at sites is currently at 17%. Georgia Power first examined energy storage in its 2019 IRP, with approval to build, own and operate 80 MW of BESS at the time.

Does Georgia Power have energy storage?

Georgia Power first examined energy storage in its 2019 IRP, with approval to build, own and operate 80 MW of BESS at the time. Georgia Power had 65,000 kW of battery capacity as of Dec. 31, 2024. According to Georgia Power, 8% of its energy mix was renewables as of 2024, and more than half is gas/oil (40%) and coal (16%).

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

Georgia Power has begun construction on a 200-megawatt battery energy storage system (BESS) in Twiggs County, southeast of Macon, Georgia.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in ...

Georgia Power has issued a request for proposals (RFP) to develop 500 MW of new battery energy storage projects, with systems required to provide at least two hours of ...

ATLANTA, May 7, 2025 /PRNewswire/ -- Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) ...

Georgia Power has begun construction on a 200 MW battery energy storage system (BESS) near its Twiggs County Solar facility, with completion scheduled for 2027. The ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage ...

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

US utility Georgia Power, a subsidiary of Southern Company (NYSE:SO), has started construction works on a 200-MW battery energy storage system (BESS) project in ...

We work closely with Georgia's universities to identify cutting-edge research regarding energy storage and provide companies with access to the latest applied research. We connect ...

Georgia Power has initiated the construction of a 200MW (megawatt) battery energy storage system (BESS) in Twiggs County, ...

Georgia Power is seeking 500 MW of energy storage that can discharge for at least two hours. The energy storage can be standalone, or with a new or existing renewable ...

Georgia Power has initiated the construction of a 200MW (megawatt) battery energy storage system (BESS) in Twiggs County, southeast of Macon in the US state. The ...
