Which is the largest supercapacitor factory in Europe?

The ISO 9001- and 14001-certified Dresden Superfactory in Germany is the largest supercapacitor factory in Europe. Their upcoming production facility for graphene-based supercapacitors, the Leipzig Superfactory, will be the largest and most modern supercapacitor factory globally.

Who makes curved graphene supercapacitors?

Skeleton Technologies has announced that it will supply its 'curved graphene'-enhanced supercapacitors to the metro units that Spanish manufacturer CAF will provide to the city of Granada, Spain. Headquartered in Donostia - San Sebastian (Spain), the CAF Power & Automation has been working with Skeleton Technologies since last year.

What is the global supercapacitor market?

Supercapacitors, also known as ultracapacitors, are becoming a critical component in modern energy storage solutions. According to Statistics MRC, the Global Supercapacitor Market is accounted for \$5.08 billion in 2024 and is expected to reach \$11.16 billion by 2030 growing at a CAGR of 14.0% during the forecast period.

Is Panasonic a supercapacitor?

Panasonic, a global electronics giant, has made significant inroads into the supercapacitor market. The company's energy storage solutions are known for their reliability, long lifespan, and consistent performance across various applications. Key Products and Technologies:

Skeleton Technologies' raw material and processes are protected by 11 patents families, and our production facility in Germany is the largest of its kind in Europe and the most modern ...

The company specializes in the design and manufacturing of high-performance supercapacitors and energy storage solutions, catering to various industries including ...

Estonia-based Skeleton Technologies has announced that it is building Europe's largest supercapacitor production facility in Saxony with the support of Siemens.

Overview About History Industries and applications Technology Financing Skeleton was established in 2009 by Oliver Ahlberg, Taavi Madiberk, Dr. Jaan Leis, and Dr. Anti Perkson when they began developing graphene-based supercapacitors. The company now has over 300 employees throughout its various locations. Skeleton operates in Germany and Estonia, with headquarters, IT and module development in Tallinn. In Germany, the company operates a materials development facility for curved graphene in Bitterfeld-Wolfen, as well as a supercapaci...

Explore the top 7 supercapacitor manufacturers that are leading the way in energy storage innovation. Discover industry leaders, cutting-edge technologies, and their global impact.

Skeleton operates in Germany and Estonia, with headquarters, IT and module development in Tallinn. In Germany, the company operates a materials development facility for curved ...

We have tested all the leading suppliers on the market and are convinced that Skeleton Technologies has by far the best offer. The lowest internal resistance (ESR) and highest ...

Estonian deep tech company Skeleton Technologies has inaugurated its EUR220 million (\$256m) "SuperFactory" in Markranstädt, near Leipzig in Germany. The factory will ...

The ISO 9001- and 14001-certified Dresden Superfactory in Germany is the largest supercapacitor factory in Europe. Their upcoming production facility for graphene-based supercapacitors, the ...

The leading Supercapacitor Manufacturers in Germany are listed in this directory. You can narrow down the list of manufacturers based on their location and capabilities, browse their product ...

Estonia-based Skeleton Technologies has announced that it is building Europe's largest supercapacitor production facility in Saxony ...

With ultracapacitors / supercaps and power electronics, we were one of the first distri­butors on the German market in the year 2005. Since then, we have continuously expan­ded our expertise ...
