Germany has awarded contracts to 490MW of solar-plus-storage projects in its latest "innovation" auction for co-located renewables.

Norwegian state-owned utility Statkraft AS has commissioned the Zerbst solar-plus-storage project in Saxony-Anhalt, Germany, which combines ...

For homeowners and tenants, this large-scale progress points toward a more resilient and sustainable national grid. The tender, designed to promote innovative projects like ...

Energy storage has become a strategic pillar for Germany. In 2024, nearly 600,000 new stationary battery storage systems were installed in the country, according to data from ...

A new project in Germany will see the phased installation a massive 500 MW / 1750 MWh battery energy storage system, and a new ...

Germany is building Europe's largest battery storage project, a 1 GW/4 GWh system by LEAG and Fluence in Jänschwalde.

A new project in Germany will see the phased installation a massive 500 MW / 1750 MWh battery energy storage system, and a new AI data center, all set to be developed ...

Commissioned by the German Solar Association (BSW-Solar), supported by Intersolar Europe 2024 and conducted by the Fraunhofer Institute for ...

EnBW has inaugurated an integrated energy park in Baden-Würtemberg, Germany, that combines solar
