Ha Minh Hiep, Chairman of the Commission for Standards, Metrology and Quality (STAMEQ), made this clear at a workshop held in ...

This study analyses and anticipates the challenges that may arise in frequency stability in Vietnam's power system by 2030, when the renewable energy integration is ...

Ha Minh Hiep, Chairman of the Commission for Standards, Metrology and Quality (STAMEQ), made this clear at a workshop held in Hanoi on June 26, which focused on ...

From June 25-27, 2025, at the International Exhibition Center (ICE Hanoi), the 2nd Vietnam International Exhibition on Battery, Accumulator and Energy Storage Technology will ...

Hanoi's top 3 storage providers are currently racing to deploy Vietnam's first gigawatt-scale project. Rumor has it the competition's fiercer than a Grab Bike during rush hour.

In this paper, the battery energy storage technology is applied to the traditional EV (electric vehicle) charging piles to build a new EV charging pile with integrated charging, ...

There are many types of energy storage technology with different applications in modern energy systems. This paper provides an up-to-date review of these storage technologies and energy ...

This product is a new energy storage box (multi-purpose backup power station), built-in high-capacity LiFePO4 pouch cells, combined with a high-strength aluminum alloy shell, is a ...

This initiative combines solar power with hydrogen technology to create a 50MW hybrid energy system, positioning Hanoi as Southeast Asia's first major city adopting grid-scale hydrogen ...

Integrating BESS into Vietnam's energy infrastructure demonstrates promising prospects for facilitating the nation's energy transition. By storing excess energy during periods of low ...

"Today's workshop has demonstrated the tremendous potential of energy storage systems in supporting a just energy transition, while also outlining concrete steps to turn ...
