---

Aptech recently commissioned an integrated hybrid system at the UNDP office in Somaliland. This system has a generation capacity of ...

This paper analyzes economic feasibility and sustainability of implementation of hybrid power system (HPS) consisting of wind generator (WG), photovoltaic system (PVS), diesel generator ...

An innovator in Africa's solar power industry has installed and commissioned an electromechanical system north of Hargeisa City in ...

Let's face it - when you think of renewable energy hotspots, Somaliland's capital Hargeisa doesn't exactly spring to mind. But hold onto your solar panels, folks! This city of 2.1 ...

The new solar system will enable Hashi Shop to significantly lower its reliance on diesel generators and grid electricity, resulting in reduced operating expenses and a smaller ...

The newly operational 50MW/200MWh battery storage facility - Africa's first community-shared system - could potentially slash energy costs by 40% while doubling renewable integration.

The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar and ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh ...

An innovator in Africa's solar power industry has installed and commissioned an electromechanical system north of Hargeisa City in Somaliland to provide renewable energy ...

SomPower is currently supplying through 33KV and 11KV transmission lines throughout Hargeisa and surroundings. Electricity is regularly transmitted to substations near populated areas. ...

Aptech recently commissioned an integrated hybrid system at the UNDP office in Somaliland. This system has a generation capacity of 25 KWp using 76 pcs of 340 Wp solar ...

Summary: Discover how Hargeisa's innovative integration of photovoltaic power generation pumps with energy storage systems solves water and electricity challenges in remote areas.
