What is a small power inverter?

Small Inverters. Our Small Inverter category includes inverters generally ranging from 125 watts to 2000 watts in 12 and 24-volt capacities. These small power inverters are great for smaller applications like boats,RVs,or other relatively smaller systems. In addition to the size,choosing an inverter with the right wave form is also important.

What is a solar inverter?

Inverters convert direct current (DC) electricity produced by solar panels into a sinusoidal alternating current (AC) of 220V, which is suitable for most electrical appliances. The assortment of inverters for solar systems on the market today is huge.
