Pope Francis has ordered the Vatican to install a solar plant that will provide electricity to the entire city state, as the pontiff does his bit to tackle climate change.

This article explores the estimated cost of its battery system, industry trends, and how similar projects can benefit from scalable renewable energy integration.

This strategic move is part of a larger plan initiated by Pope Francis about one year ago, aiming toward making solar energy the primary power source for Vatican City as outlined ...

ROME (CNS) - Almost a year after Pope Francis set up a commission to develop a large solar-panel array on Vatican property outside of Rome, Pope Leo XIV visited the site and the ...

During the June 19 site visit, the Holy Father blessed staff working in the central radio center on the Vatican's Corpus Christi holiday and reaffirmed the "missionary value" of their work in ...

As the world's smallest independent state, the Vatican faces unique energy challenges. With limited space for solar panels and a commitment to becoming carbon-neutral by 2050, its ...

Pope Leo XIV visited the Vatican's radio transmitter station in Santa Maria di Galeria, Italy, on Thursday and thanked staff for their ...

This article explores how lithium-ion technology is reshaping energy management in religious and cultural hubs like the Vatican, while highlighting opportunities for global suppliers.
