How much does a shipping container house cost?

Shipping container homes cost \$25,000 to \$80,000 for a single-container model or \$80,000 to \$250,000+ for a multi-container house. The average cost to build a container home is \$150 to \$350 per square foot, depending on the size and features. Shipping container prices are \$1,200 to \$10,000 for the container alone.

How much does a shipping container home foundation cost?

A shipping container home foundation costs \$3,000 to \$19,350, depending on the type and size. A concrete slab foundation is the most common and cheapest at \$5.75 to \$13.50 per square foot, while pier footings and crawlspace foundations are priced at the higher end of the range.

How much does a shipping container cost?

A shipping container costs \$1,700 to \$8,200 on average, depending on the size, condition, and features. A single container can be used to build a tiny home, or multiple containers can be stacked on top of each other or placed side-by-side to create a larger home. Shipping containers come in 10', 20', and 40' lengths.

Are shipping container houses subject to property taxes?

Shipping container houses are subject to local property taxes, which vary by location. Homeowners insurance for a shipping container house costs \$50 to \$150 per month, depending on the home's size and features. To qualify for standard homeowners insurance, the home must meet all local building codes.
