Why did Solarpower Europe remove Huawei?

Data Protection Policy SolarPower Europe (SPE) has dropped Huawei as a member amid an EU corruption investigation, as the European Commission moves to sever ties with trade groups representing the Chinese tech giant. The decision marks the first such removal by the Brussels-based solar lobby.

Is Huawei a member of Solarpower Europe?

SolarPower Europe has removed Chinese tech giant Huawei as a member, marking the first time the Brussels-based solar industry association has taken such action, an SPE spokesperson has told pv magazine. The board made the decision on April 28, 2025, and "the procedure is continuing as laid out in our statutes," said the spokesperson.

Why are Huawei's solar panels being banned in China?

Such restrictions would target Huawei first and foremost, as the dominant Chinese supplier of critical parts of these systems. The fears center around solar panel inverters, a piece of technology that turns solar panels' electricity into current that flows into the grid.

Does Europe have enough solar panels?

Domestic manufacturers of solar panels have enough supply to fill the gap that any EU action to restrict Chinese inverters would create, Langerov said. But Europe does not yet have enough battery or wind manufacturers-- two clean energy sectors China also dominates.
