-----

Covering 100 km of grid infrastructure, it is the world's first independent microgrid project to be fully powered by solar and energy ...

This is where companies like Huawei are rewriting the rules with next-gen energy storage solutions. Let's explore how these systems work and why they're transforming industries from ...

Huawei has invested a staggering \$16 billion in energy storage projects, focusing predominantly on technological innovation and advancements in renewable energy ...

The world's first batch of grid-forming energy storage plants has passed grid-connection tests in China, a crucial step in integrating ...

Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize ...

SHANGHAI, June 16, 2025 /PRNewswire/ -- Huawei Digital Power, in collaboration with SchneiTec, has successfully commissioned Cambodia's first-ever T&#220;V S&#220;D-certified grid ...

The world's first batch of grid-forming energy storage plants has passed grid-connection tests in China, a crucial step in integrating renewables into power systems.

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has ...
