The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its ...

As the world goes green, KenGen's Modular Data Centre and BESS is a sneak peek into what the future of energy resilience and renewable storage looks like. By reducing ...

KenGen emphasised that beyond powering the MDC, the storage system enhances grid stability, improves energy independence, and ensures backup during outages. The ...

KenGen's battery storage for its proposed 42.5 Megawatt (Mw) solar plant comes at a time the government has directed all new firms, seeking to set up wind and solar power ...

With the right mix of policy, innovation, and investment, it can become a continental leader in energy storage too. BESS can not only stabilise the grid but also ...

KenGen's battery storage for its proposed 42.5 Megawatt (Mw) solar plant comes at a time the government has directed all new ...

The BESS project will reduce the impact of intermittency on the grid and store power for use during peak hours. KenGen is working with the World Bank to fast-track implementation of the ...

The Kenya Electricity Generating Company PLC (KenGen) has unveiled its first-ever Battery Energy Storage System (BESS) to power its modular data centre in Nairobi.

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular
