-----

This project consolidates our position as a leading provider of energy storage solutions in the DACH region and actively promotes a more sustainable energy future.

Based on current scientific knowledge, leading Swiss researchers consider that where large amounts of energy need to be stored for the medium to long-term, technologies ...

It is examining the construction of large-scale battery projects in M&#252;hleberg and Bickingen in the canton of Berne and in Bassecourt in ...

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, ...

With large battery storage systems playing an increasingly important role in the expansion of renewable energies, Axpo and energieUri AG plan to build their own facilities at the same ...

Axpo Group and energieUri AG have announced plans to jointly develop two large-scale battery energy storage systems (BESS) in Gurtnellen, Switzerland.

It is examining the construction of large-scale battery projects in M&#252;hleberg and Bickingen in the canton of Berne and in Bassecourt in the canton of Jura. The corresponding ...

This integration of energy, digital, and thermal systems positions Laufenburg as a model for multifunctional energy hubs that combine IT infrastructure, renewable energy, ...

This large-scale energy storage project plays a key role in stabilizing Switzerland's renewable energy supply.
