Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with ...

Sustainable and Holistic Integration of Energy Storage and Solar PV (SHINES) program develops and demonstrates integrated photovoltaic (PV) and energy storage solutions that are scalable, ...

French renewable energy independent power producer (IPP), Total Eren, is looking to construct a 50-MWp solar photovoltaic (PV) energy plant near the capital of Gabon, Libreville.

Our Liquid-cooled Outdoor Energy Storage Cabinets are designed to provide efficient and reliable energy storage solutions for commercial and industrial applications.

As Gabon accelerates its renewable energy transition, the Libreville energy storage power station has become a focal point for industry experts. This article explores the project's location, ...

The Libreville Photovoltaic Energy Storage Power Station tender is more than a project--it's a blueprint for Central Africa's sustainable energy future. By combining solar generation with ...

Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. [pdf]

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). [pdf]

The energy storage station is a supporting facility for Ningxia Power's 2MW integrated photovoltaic base, one
