Are portable power stations a good investment?

If you buy through our links, we may earn a commission. Whether you live in an area prone to power outages or want to take a way to power up with you on the road or camping, a portable power station can be an excellent investment, especially in the dark and cold winter months.

Is Fossilbot a good power station?

Fossilbot isn't a household name, but that doesn't stop it from being a great value option for those looking for an extra-large power station for home backup. This power station comes with a massive 3,840Wh capacity, putting it in the same size category as the Anker Solix F3800.

Which power station has the best mobility?

The Jackery 300 and Anker 521 ran away with the best mobility scores, thanks to their small form and light weight. However, for larger power stations, it was hard to ignore the impressive weight-to-power output ratio of the Anker Solix C1000.
