President Lazarus Chakwera has today officially launched the Battery Energy Storage System (BESS) project by the Electricity Supply Corporation of Malawi (Escom) at ...

With 10-year replacement cycles looming, Malawi's developing Africa's first closed-loop recycling framework. Think of it as building the plane while flying--they're negotiating with Chinese ...

Discover how Malawi is advancing renewable energy integration through rigorous battery storage testing - and why this matters for Africa's energy transition.

Backed by our Alliance, and implemented by the state utility ESCOM, the project will install a 20MW/30MWh battery system in Lilongwe. The system will store electricity when ...

Malawi is building its first battery-energy storage system to protect its grid from extreme weather, including cyclones that have repeatedly disrupted power in recent years.

Malawi has taken a significant step towards transforming its energy access and reducing carbon emissions with the launch of a \$20 million Battery Energy Storage System ...

Backed by our Alliance, and implemented by the state utility ESCOM, the project will install a 20MW/30MWh battery system in ...

Final Thought: As Malawi strides toward its 2030 renewable energy targets, phase change storage isn't just an option - it's becoming the backbone of sustainable power infrastructure.

Malawi is building its first battery-energy system, a technology that will help protect its grid from cyclones
