Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

Masdar has announced preferred suppliers and contractors for its 5.2GW solar PV and 19GWh battery storage project in Abu Dhabi, United Arab Emirates (UAE).

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, accompanying a soaring penetration of renewable ...

Located in Abu Dhabi, the facility will feature a 5.2GW solar photovoltaic (PV) plant coupled with a 19 gigawatt-hour (GWh) battery storage system, setting a new benchmark in ...

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, ...

MEOX made its solar-powered shipping containers to work in tough places. The containers use special anti-corrosion materials and smart insulation. These parts keep the ...

In the UAE, Masdar is leading a \$6 billion project combining 5.2 GW of solar power with 19 GWh of battery storage, aiming to supply 1 ...

The implementation of the world's largest battery energy system (BESS) project progresses as Saudi Arabia begins qualification tenders. The Kingdom of Saudi Arabia is ...
