Are battery energy storage systems regulated in New York City?

Battery energy storage systems in New York City are rigorously regulated, with oversight from the safety industry, federal, state, and local authorities. All code, location, spacing, and other local requirements must be met.

What is New York state's energy storage plan?

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers.

What is New York's energy storage goal?

New York's Climate Leadership and Community Protection Act (Climate Act) codified a goal of 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030.

How will energy storage affect New York's energy grid?

In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. Storage will increase the resilience and efficiency of New York's grid, which will be 100% carbon-free electricity by 2040. Additionally, energy storage can stabilize supply during peak electric usage and help keep critical systems online during an outage.

The New York State Public Service Commission has ...

This diverse resource includes energy storage that can provide dispatchable power on intra-day and/or multi-day time-scales, and includes various types of mechanical energy storage, ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

The adoption of the Clean Energy Standard in New York in 2016 was arguably the first piece of regulatory

policy in New York that served as a catalyst for energy storage development in the ...

The New York Solar Energy Industries Association has recommended nine ways for the administration of New York City Mayor-elect Zohran Mamdani to speed solar and storage ...

On October 18, NYSERDA filed its Bulk Energy Storage Implementation Plan Proposal (the "NYSERDA Proposal"), the last ...

A new bill, Energy Storage Tax Incentive and Deployment Act, was introduced in March 2021 for standalone ESS and offers similar tax credit benefits for certain renewable energy sources.

Battery energy storage systems in New York City are rigorously regulated, with oversight from the safety industry, federal, state, and local authorities. All code, location, ...

The New York State Public Service Commission has approved the state's retail and residential energy storage implementation plan, a significant step in its effort to reach 6 ...

As least 15 new battery energy storage systems slated for Staten Island, data shows Published: Jan. 05, 2026, 5:50 a.m.

In June 2024, Governor Hochul announced that the Commission had approved a new Energy Storage Roadmap for the state to achieve a nation-leading six gigawatts of ...

On October 18, NYSERDA filed its Bulk Energy Storage Implementation Plan Proposal (the "NYSERDA Proposal"), the last document needed for PSC approval before ...
