-----

An integrated RISC-V coprocessor can run software-defined peripherals and handle time-critical tasks. With innovative technologies emerging - like Channel Sounding in Bluetooth 6.0 - ...

About half of the capacity is installed on households - the rest for industrial and commercial use, with a very limited Utility scale solar. Though modest compared to the other Nordic ...

In recent years, the Nordic countries have made significant strides in incorporating solar energy into their renewable energy mix. This blog delves into the key trends and ...

The nPM2100 is designed to provide highly efficient power regulation for any primary-cell application, with exceptional software support for Nordic's nRF52, nRF53, and nRF54 Series ...

Trusted by thousands of developers and holding a 40% market share, Nordic's Bluetooth® LE solution is the go-to choice, leading to over two million wireless SoC (System-on-Chip) ...

We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit from solar energy. As we pursue this mission, our vision is to emerge ...

In recent years the price of solar cells has fallen so dramatically that more and more people are now looking to invest in solar panels. These can be installed either as free-standing structures ...

Cellular IoT Wi-Fi Bluetooth Low Energy Nordic Product Guide [Click to download PDF](#)

The report communicates our shared perspective on key development trends in the power system and strategies to address emerging challenges. It also provides a status update on ongoing ...

Discover the Nordic grid system's intricacies and seize solar prospects across Norway, Sweden, Denmark, and Finland in this comprehensive guide.

The "eufy Smart Lock E30" employs Nordic Semiconductor's nRF52840 SoC to power the Matter-over-Thread connectivity, enabling users to lock and unlock their smart lock via any Matter ...

Utility-scale solar projects in Sweden, Finland, and Denmark are flourishing, while battery storage and AI are reshaping what's possible for grid stability and long-term power ...
