North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is ...

But hold onto your charging cables, because North Macedonia's capital is quietly becoming a lab for new energy storage in Skopje. From solar farms that moonlight as battery ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in ...

Skopje's new shopping mall uses thermal storage - freezing ice at night to cool buildings by day. It's like having a glacier in your basement, minus the polar bears!

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to ...
