-----

The following provides information on California energy storage legislation, the CPUC energy storage program and projects evaluation, CPUC energy storage proceedings, ...

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be ...

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges still loom on the horizon--tariffs, shifting ...

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.

Determine the types of storage to be considered. Grid carbon content varies throughout the day. Grid carbon content varies by region. Make and store chilled water (or ice) in tanks when ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and ...

Whether you're integrating renewables, stabilizing your operations, or seeking cleaner alternatives to diesel,

Enerbond's containerized energy storage solutions are built to ...

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient solutions provide reliable power and energy ...

Energy Storage LegislationEnergy Storage Procurement to DateEnergy Storage Procurement EvaluationScaling Up and Crossing BoundsEnergy Storage ProceedingsOther Energy Storage Related RulemakingsAdditional ResourcesTo date the CPUC has approved procurement of more than 1,533.52 MW of new storage capacity to be built in the State. Of this total 506 MW are operational. The AB 2514 mandate is procured in three distinct grid domain targets, with some flexibility between the grid domain targets of customer sited, distribution-connected, and transmission connected....See more on [cpuc.ca.gov](http://cpuc.ca.gov)Last updated: Jul 5, 2019GSA[PDF]Energy Storage in Federal Buildings Interim report (outline)Determine the types of storage to be considered. Grid carbon content varies throughout the day. Grid carbon content varies by region. Make and store chilled water (or ice) in tanks when ...

By aligning tender structures with private sector risk tolerance and leveraging standardized checklists (e.g., DOE's procurement guidelines), governments can reduce bid ...
