What is a 40' off grid container home with solar panels?

The solar panels provide power for your lighting, appliances, and heating needs. You can also collect rainwater for your needs, which makes this home an ideal choice for those who want to live sustainably and self-sufficiently. Learn more about the specs of your 40' off grid container home with solar panels below:

What is an off grid container home?

With our 40' Off Grid Container Home, you can live anywhere without the need for electricity from the grid. Our solar panels provide all the power you need to live a comfortable life. You'll enjoy the freedom of going off the grid and reducing your reliance on fossil fuels.

What is a 40' shipping container home with solar panels?

If you're dreaming of a sustainable lifestyle, our 40' Shipping Container Home with Solar Panels is perfect for you. Built from recycled steel, this home is both durable and eco-friendly. With its own solar panels, you can live completely off the grid and reduce your carbon footprint.

How much does an off-grid solar panel kit cost?

Our off-grid solar panel kits are designed to make energy independence accessible, starting at just \$2,666.00. From affordable starter kits to advanced whole-home solar panel kit systems, OMO Solar ensures you can transition to clean, renewable energy without compromising on quality or reliability.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

A versatile mobile solar PV container offering plug-and-play green energy solutions with modular design, high-efficiency panels, and global mobility for off-grid and emergency power needs.

You can send us your order online through our website if you prefer. At checkout, please select "Pay by Bank Wire, Cashier's Check, Cash or Financing" and then complete your checkout. ...
