Equipped with 192 solar panels, the vessel is the first of its kind capable of hybrid propulsion using solar power, supplying energy to both onboard systems and high-voltage propulsion.

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, ...

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, VSG grid-forming, and intelligent ...

In what's presented as a significant technical milestone for sustainable inland shipping, the vessel's 192 solar panels will provide ...

The Blue Marlin is a new hybrid inland cargo vessel revolutionizing the shipping industry. The ship, developed and launched ...

The Blue Marlin is a new hybrid inland cargo vessel revolutionizing the shipping industry. The ship, developed and launched by Dutch solar company Wattlab and German ...

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ...

This vessel is the world's first hybrid solar-powered inland transport ship, featuring 192 solar panels that power its propulsion system and onboard operations, marking a ...
