Discover how a new strategy is emerging to help the people living in Amazonia cities secure jobs, housing and safety, without further harming the biome.

Peru's high-altitude solar farms are testing vanadium flow batteries that laugh in the face of thin air. Meanwhile, the Majes Project --a pumped hydro storage beast--is storing ...

Economies in Latin America are recovering from the shocks of previous years, but there are clouds in the sky ahead. Is the region's fortunes turning?

With the rainforest's future hanging in the balance, scientists have drawn up a 10-point plan to help save the Amazon.

New modular designs enable capacity expansion through simple container additions at just \$210/kWh for incremental capacity. These innovations have improved ROI significantly, with ...

Latin American leaders and representatives at Davos 2025 The 2025 Annual Meeting will feature public addresses from several heads of state including President Javier ...

Davos 2025, the Annual Meeting of the World Economic Forum, takes place from 20-24 January under the theme, Collaboration for the Intelligent Age.

The Anglo-American firm Invinity Energy Systems claims to be the world's biggest vanadium flow-battery supplier; it has more than 275 in operation and a growing number of projects planned.

Major commercial projects now deploy clusters of 15+ systems creating storage networks with 80+MWh

capacity at costs below \$270/kWh for large-scale industrial applications.

The World Economic Forum's Annual Meeting takes place in Davos from 20-24 January 2025. Here's a snapshot of everything you need to know about Day 4 of Davos 2025.

Great inventions from the Latin America region.

This article explores the role of vanadium redox flow batteries (VRFBs) in energy storage technology. The increasing demand for electricity necessitates a rise in energy ...
