Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and Portugal, marking a major step in its clean energy strategy. According to ...

Portugal and Spain are racing to build energy storage sites - and they're doing it with the urgency of someone who just discovered their phone battery is at 1%.

Installed in the southern Portuguese region of the Algarve, the 5MW/20MWh battery system enhances the site's ability to dispatch renewable energy to the grid when it ...

Spain and Portugal's unique geographic endowments--including ample opportunities for cost-effective renewable energy production and significant raw materials--as well as their mature ...

Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in ...

The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value.

Portugal's energy-storage market is entering a new stage of maturity, combining grid-scale standalone batteries and hybrid (co-located) systems with renewable plants.

Discover GSL ENERGY's 20kWh wall-mounted LiFePO4 battery project in Portugal. Paired with Deye inverter, it supports off-grid & backup power for reliable home energy storage.

With the core objective of improving the long-term performance of cabin-type energy storages, this paper
