What is a solar fountain pump?

Our Solar Fountain Series Pumps are high volume pumps for aerators and fountains- floating Submersible or self priming suction. Add healthy oxygen and circulate your ponds water! There is no other solar fountain pump kit like this on the market! Healthy water means algae-free. Easy to install! Looking for aeration via solar air compressor?

Are solar water pumps submersible or floating?

Depending on your needs, you can look for either submersible pumps or pumps floating on water- however, many of them work very well as both. The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection.

How much does a solar water pump cost?

A solar water pumping system comes in a wide range of prices, from around \$20 for a small water fountain pump to well over \$1,000 for deep well submersibles or irrigation pumps. The cost will depend on the size and power of the pump, the manufacturer, and the price of additional accessories you may need. Q.
