This guide explains the costs involved in going solar, factors that affect pricing, and how to decide if solar panels are the right choice for you.

We break down the seven best solar installers in New York. Our ratings are based on our expert reviews and reviews from homeowners who have already gone solar in New York.

With both the state and federal solar tax credit, plus the NY-Sun incentive, an average solar system would cost around \$7,000. Without incentives, the total cost would be closer to \$18,000.

The program determines how much solar energy is worth via metrics like the wholesale price of electricity and the environmental benefits of going solar, among other things.

Thinking about installing solar panels in New York? Find ...

SolarReviews is America's leading independent, unbiased, solar company and solar panel comparison website for homeowners considering installing solar panels on their homes.
